Winter Meetings

Meetings are held at the Glen Carbon Senior Citizens
Center on the second Sunday of each month at 3PM.
Mark your calendar for Feb 12th, Mar 12th, and April 9th.

Remember to bring in your winter building projects.

Aviation Truism (*mostly true*)

*“The only time you have too much fuel is when
you’re on fire.”*

New Club Instructor – Please welcome Brian
Ludwig as our newest, and youngest, RC Instructor Pilot.
Brian is a serious student of the hobby and will make a great
IP. He will be working with several of our “older”
instructors for a short time this spring to round out his fear,
sarcasm, and ridicule skills. After that – we will work him
hard. Many thanks Brian!!

A Reminder - if you change your email address,
please let the secretary know. Email news letters save the
club over \$300 a year.

2006 Frozen Finger Fly

“Global warming” produced a very nice day and everyone had a great time!

Steve Teeple's present from Santa.

Fuel conservation ?? I burned 60 gallons last year!

Membership – It is (always) that time of year again – please renew your membership early and take advantage of the discount.

Also remember to wear your 2006 membership cards at the field! It's the only way we can tell whose AMA and ESRC membership are current. Another good reason is that many of us can't remember names anymore!

Speaking of new members, welcome Mike Dennis and Dan Weeks to the club then next time you see them at the field (*you will know who they are because they will be wearing their name tags*).

Safety – When you renew your membership for 06,

please review the AMA and ESRC safety rules.

Also, lots of time left to look over your R/C airplanes for safety issues. If your batteries are a couple of years old – recycle them to determine how much life is left. If you do not have a battery cycler, consider mooching one or buying one – they are well worth the investment.
