Helicopter Humor

One late night during bad weather, as heard over the Canadian Forces tower frequency in Bagotville. Helicopter pilot: Roger, I'm holding at 3,000 feet over the beacon. Second voice: (Panic in voice) No, you can't be doing that...I'm holding at 3,000 feet over that beacon. Helicopter pilot: (Short pause) You idiot, you're my copilot.

Safety Notes

One of our experienced members recently had a scare that could happen to any of us – he started his model with the transmitter on the wrong airplane. When the engine started, the throttle went to 100% and the model jumped the safety keep. Needless to say, he had his hands full and almost got whacked in the kidney with a 10,000 RPM propeller. This was a close call and something for all of us to think about. FLY SAFE

Sunday is YMCA Day.

Please try to turn out and support this event with your trainer and buddy box. We will also need club members to display an aircraft near the safety line and answer questions. Finally, we will need a couple of members to escort kids and adults to and from the buddy box. Scott has been told to expect over 100 folks this year. Hopefully the weather will warm up.

PEKIN RC Club 27th ANNUAL BIG BIRD FLY-IN September 16, 2007

We would like to invite you to attend. We hold this event every Year to help support the training of new pilots and maintaining the field. We work with the general public, Boy scouts, school classes, and the park Board, to educate the public to radio controlled airplanes.

It will be an IMAA event. Our sanction number is # IL 07-037-09-16. There Will be numerous 1/3 and 1/4 scale ww1,ww11 war birds along with many other IMAA legal planes. We are inviting every IMAA chapter from surrounding States to attend.
