FUN FLY and PICNIC

This year's Fun Fly and Picnic was a huge success. A large turnout, combined with a beautiful day and lots of good food made for a fun event.

Scott's EDGE 540

Ouch - - Why am I smiling?

Thanks again to the Teeps for lugging his grill to the fly field.

Time to digest.

Dwight Hayden's Ultra Light

Last month Dwight's "Butterfly" finally spread her wings. Dwight said it was a great feeling to finally get her in the air after nearly two years work. Dwight did an impressive job of rebuilding his "Butterfly" from the ground up.

Life is good! Fly Safe!

A Note From Ron Crawford

If anyone knows of a young person looking to get started in R/C I will give them my Hangar 9 .40 sized trainer. The airframe is ***FREE*** and if it goes to a newbie needing servos I can leave the servos in for a very modest cost. It's had its share of repairs but still flies well.

I am also giving away my flat foamy edge 540. It will need micro servos, electric motor, ESC, Lipo battery and receiver. Again, the airframe is ***FREE***.

Anyone interested can call me at 288-54768.
