Scott Fitzgerald 558-8064
sfitzgerald@eastsiderc.com

Congratulations to Joe White he is now one of our fixed wing instructors. God help us all.

WELCOME!

Welcome new member Jim Planitz to the club. Make sure to say hello the next time your at the field!

Joe White Enterprises

The next time you see Joe at the field, ask him to show you the electric powered 3D foam airplanes he is making - Very cool and very maneuverable.

A note from the editor.

**Hey guys,
Sorry the newsletter was little late, been busy with work and family. I will do my best to get it out as quickly as I can, but I probably wont. Just be patient with me. Also going to get some more content in the future.**

**SAFETY
NOTES:**

Be aware of all pedestrians and spectators around the field and help each other watch while flying!

Make sure all spectators stay behind the yellow barriers!

Just something to look at

You have to listen to the sound of this engine. Amazing! Kolm engines, a German company. If you can read German go to Kolmengines.com

<http://www.youtube.com/watch?v=5PnJkBI0QI8>

Cool channel on Youtube. Lots of videos of RC planes.

Like Warbirds ?

The fifth annual Warbirds and Classics over the Midwest event (WCOM) held in Fond du Lac, WI is less than five months away! The dates are Aug. 18th, 19th, & 20th, with a fixed wing open event on the 21st.

Quite a few pilots are already preregistered.

Check out some of the "big guns" already signed up at

<http://www.midwestwarbirds.com/List-Pre-Register.cfm>

You can Pre Register at

<http://www.midwestwarbirds.com/signup.cfm>

Check out the hundreds of photos by world renowned photographer Palmer Johnson and several excellent videos of recent shows.

There is a feature article in the May, 2011 issue of FLY RC Magazine that will also give you a taste of the event.

At the rate of pre registration, this years show promises to be the best ever.

It draws pilots from all across the USA and Canada.

Currently the pilot from the farthest distance is from Auckland, New Zealand.

Last year over 125 pilots thrilled the 3,000 spectators over the 4 day event.

I can't wait!

Upcoming Events:

9/18/2011 -- Pekin, IL (C-Restricted) 31ST ANNUAL PEKIN BIG BIRD FLY IN. Site: Hermon Lowery Field in Everett Mckinley Dirksen Park. Robert Roberts CD PH: 309 -444-7725 Email: roberts.ann976@gmail.com. Visit: www.pekinrc.com. The north side of Route 98, two miles east of Route 29, and 6 miles west of I-155. Registration 8AM, fly 9AM to 3PM, free lunch for registered pilots. Sponsor: PEKIN RC CLUB INC The AMA also has the following events listed for those lucky enough to attend:

A great summer of flying takes off at IAC!

Another terrific season for model aviation pilots and spectators is ahead for this summer around the country, and especially at the International Aeromodeling Center in Muncie IN, next to AMA's Headquarters and the National Model Aviation Museum. Got the bug? Then put these events on your calendar for the coming months.

75thEventLogo-125Celebrating 75 years of model aviation, July 14-17 . . .

Flying this summer has a special luster to it - it's the 75 th anniversary of the Academy of Model Aeronautics. Born in the Golden Age of Aviation, AMA is still going strong and it's time to celebrate. You are invited to join pilots and enthusiasts from across the country July 14-17 at the International Aeromodeling Center in Muncie, IN for several days of flying and camaraderie. Click here to see the schedule of events. You are also invited to attend the Diamond Anniversary Gala, July 15, at the Muncie Horizon Convention Center, an evening of good food, live music and a look back and forward to all that gives AMA its renowned stature. Go herefor Gala details.

NATS 2011-web125...and 85 years of National Aeromodeling Championships - The Nats!

Even older than AMA is the spirit of model aircraft competition. Ten years before AMA was organized there were national-level competitions. The National Aeromodeling Championships - forever known as "The Nats" - will be held once again at the IAC in Muncie, June 25 - August 11. For five-plus weeks, competitions in a full array of disciplines will be open to all who register and to all who are fascinated with the best performances in model aviation. Nats Director Ron Morgan, in his 51 st year in this capacity, and his 20+ Contest Directors should be commended for giving so much for this to happen.

F3A-World-Championships-125F3A World Championship brings 35 national teams to compete at IAC

Yet another fantastic opportunity to see the world's best aeromodeling pilots compete will be at the July 23-August 1 F3A World Championship at the International Aeromodeling Center in Muncie. This year features 35 national teams from around the globe competing in RC Pattern flying. As a program of the Fédération Aéronautique Nationale, the World Championship is affiliated with the International Olympic Committee. For much of the country the IAC is within a day's drive. This is yet another premier event to put on your calendar for this summer.
