Congratulations to Joe White he is now one of our fixed wing instructors. God help us all!!!

Indoor Flying

Don't miss it! Every Tuesday night there is an indoor fun fly at The Sports Academy, 101 The Game Drive, Glen Carbon, IL. It is basically at the intersection of 157 and 270.

The time is 6pm to 9pm. Admission is free to watch, \$5 per hour to fly. So far there has been everything from micro plane flying slow laps to 40" electric indoor foamies doing some crazy 3D maneuvers.

The standard process is fly, impact, apply some CA with Kicker, repeat...

No need for reservations, just show up.

Contact Jerry McKenna if you need more information at 618-530-3073 or gembjm325i@yahoo.com

WELCOME!

Welcome new member Jim Planitz to the club. Make sure to say hello the next time your at the field!

Joe White Enterprises

The next time you see Joe at the field, ask him to show you the electric powered 3D foam airplanes he is making - Very cool and very maneuverable.

SAFETY **NOTES:**

Be aware of all pedestrians and spectators around the field and help each other watch while flying!

Check your plane before and after each flight to make sure it comes back in one piece!

Just something to look at

The last commercial airline using the DC-3

<http://www.eaavideo.org/video.aspx?v=110918534001>

A plane lost to stupidity. Notice the fire extinguisher under the table!

<http://www.youtube.com/watch?v=xAVMJB Ly-UU&feature=related>

There is an excellent show on the husband wife team of Jon and Patricia Sharp, builders of the Nemesis NXT racer. It shows all the trials, tribulations, and ultimate success they had building and racing the plane. Here's a link to programming info.

Like Warbirds ?

The fifth annual Warbirds and Classics over the Midwest event (WCOM) held in Fond du Lac, WI is less than five months away! The dates are Aug. 18th, 19th, & 20th, with a fixed wing open event on the 21st.

Quite a few pilots are already preregistered.

Check out some of the "big guns" already signed up at

<http://www.midwestwarbirds.com/List-Pre-Register.cfm>

You can Pre Register at

<http://www.midwestwarbirds.com/signup.cfm>

Check out the hundreds of photos by world renowned photographer Palmer Johnson and several excellent videos of recent shows.

There is a feature article in the May, 2011 issue of FLY RC Magazine that will also give you a taste of the event.

At the rate of pre registration, this years show promises to be the best ever.

It draws pilots from all across the USA and Canada.

Currently the pilot from the farthest distance is from Auckland, New Zealand.

Last year over 125 pilots thrilled the 3,000 spectators over the 4 day event.

I can't wait!

Upcoming Events:

Some of you may be interested in an event to be held at the River City RC field – June 30 – July 3, 2011.

The River City field is 1.5 miles north of I-270 at Riverview Drive (the first exit in Missouri).

The event is called a “Huckfest” and is a non-competitive fly-in for large-scale (100 cc gassers and bigger) aerobatic planes. Mostly it is 3d flying (hovering, etc.) in a laid back attitude. The River City web site is www.rivercityflyers.com

There is not much information there yet, but they may post additional info as the event gets closer. Usually they have a bunch of fireworks at night and some night flying.

OFFICIAL RULES AND INFORMATION FOR THE 2011 SIG R/C FLY-IN

- 1) All applicable AMA and FCC regulations governing the pilot, his aircraft and equipment, and his conduct while on the field will be enforced. Consideration for the safety of spectators, fun fly personnel, and other flyers is of the utmost importance. Any hazardous flying over a controlled spectator area will be cause for immediate grounding.
- 2) This event is a family-style Fun Fly, with the emphasis on safe fun flying and camaraderie. There will be ample open flying opportunities for all registered pilots. This is not a contest.
- 3) This Fly-In is AMA sanctioned. You must show a valid AMA license when you check in at the flying site. If you are not currently an AMA member, new AMA membership applications will be available at the site.
- 4) Each registered pilot may bring and fly as many different R/C model airplanes as he wishes, as long as each model meets all pertinent AMA guidelines. Maximum engine size is 6.0 cu.in. Maximum weight with fuel is 55 pounds.
- 5) All AMA legal frequencies will be allowed at this Fly-In. This includes the use of all 50 channels (both odd and even numbers) in the entire 72 mhz. and 2.4 ghz. band. In over 36 years of R/C activity, there have been no known frequency issues at SIG FIELD.
- 6) All transmitters and receivers must meet narrow-band standards. As part of the registration form, the pilot will sign a statement indicating that his radio equipment meets the guidelines for narrow-band operation.
- 7) Safety first! Each contestant is required to have a spotter/pitman with him at all times while on the flight line.
- 8) The SIG Field is located 1-1/2 miles south of Montezuma, Iowa on U.S. 63. Montezuma is located 8 miles south of Exit 191 off Interstate 80. It is approximately 60 miles east of Des Moines and 110 miles west of Davenport.
- 9) Pre-registration is encouraged. You may obtain an official entry form from:

SIG Mfg. Co., Inc.
R/C Contest
P.O. Box 520
Montezuma, IA 50171-0520

EVENTS FOR THE 2011 SIG R/C FLY-IN JUNE 11 - 12

BOMB DROP: For SIG airplanes only
Eggs, dropping device, and rubber bands furnished.

SUPER TURF TAG: For SIG airplanes only
This is an airborne version of musical chairs and will be flown in rounds. Up to 6 contestants get airborne and orbit away from field. At the sound of the horn they must do a touch and **GO**. Last man down and any that can't go are eliminated. Continue until only one man left. Winner of the heat advances to next round.

SATURDAY NIGHT E-FLY: For all electric park and slow flyers
From 7:00 P.M. until dark is reserved for electric flying only. Bring your park and slow fliers and enjoy an evening of silence.

- Club Information: www.orchardfarmrc.com

The AMA also has the following events listed for those lucky enough to attend:

A great summer of flying takes off at IAC!

Another terrific season for model aviation pilots and spectators is ahead for this summer around the country, and especially at the International Aeromodeling Center in Muncie IN, next to AMA's Headquarters and the National Model Aviation Museum. Got the bug? Then put these events on your calendar for the coming months.

75thEventLogo-125Celebrating 75 years of model aviation, July 14-17 . . .

Flying this summer has a special luster to it - it's the 75 th anniversary of the Academy of Model Aeronautics. Born in the Golden Age of Aviation, AMA is still going strong and it's time to celebrate. You are invited to join pilots and enthusiasts from across the country July 14-17 at the International Aeromodeling Center in Muncie, IN for several days of flying and camaraderie. Click here to see the schedule of events. You are also invited to attend the Diamond Anniversary Gala, July 15, at the Muncie Horizon Convention Center, an evening of good food, live music and a look back and forward to all that gives AMA its renowned stature. Go herefor Gala details.

NATS 2011-web125...and 85 years of National Aeromodeling Championships - The Nats!

Even older than AMA is the spirit of model aircraft competition. Ten years before AMA was organized there were national-level competitions. The National Aeromodeling Championships - forever known as "The Nats" - will be held once again at the IAC in Muncie, June 25 - August 11. For five-plus weeks, competitions in a full array of disciplines will be open to all who register and to all who are fascinated with the best performances in model aviation. Nats Director Ron Morgan, in his 51 st year in this capacity, and his 20+ Contest Directors should be commended for giving so much for this to happen.

Xfc 2011 Extreme Flight Championships take it to the max

Want to say, "WOW!" Want to see model airplanes and helicopters do things you never thought possible given the laws of gravity and physics? It happens at the Extreme Flight Championships (XFC), June 3-5, at the IAC. Contest Director Frank Noll, Jr. has pilots coming from seven countries and Puerto Rico. The four-minute freestyle flights rock to music and feature "gadgets" not normally seen in routine flying. It's all about choreography and precision by some of the best pilots anywhere.

NEFI_logo-plainNational Electric Fly-In - come to Muncie, plug it in, join 100+ pilots

For the second year, AMA is sponsoring the National Electric Fly-In, June 10-12 at the IAC. Open to all who want to register for \$15 per pilot at this all-electric recreational fly-in. Free camping, free battery charging stations, special hotel rates, raffles, and free admission to the National Model Aviation Museum - which will share in proceeds from the admission donation, along with the Animal Rescue Fund (ARF) of Muncie.

F3A-World-Championships-125F3A World Championship brings 35 national teams to compete at IAC

Yet another fantastic opportunity to see the world's best aeromodeling pilots compete will be at the July 23-August 1 F3A World Championship at the International Aeromodeling Center in Muncie. This year features 35 national teams from around the globe competing in RC Pattern flying. As a program of the Fédération Aéronautique Nationale, the World Championship is affiliated with the International Olympic Committee. For much of the country the IAC is within a day's drive. This is yet another premier event to put on your calendar for this summer.
